1st Best 6 Blooms—Miss California.
1st Largest Dahlia in the Show—Santa Anna.
TO OUR PATRONS

WE present with great pleasure our 1926 Catalogue of California field grown tubers. We also wish to thank our patrons for their letters of appreciation telling us of the success they have had in growing our Dahlias and prizes won with them. We are constantly striving for the betterment of the Dahlia, and during the blooming season the show windows of our downtown store at 123 Kearny Street, San Francisco, are filled with Dahlias of every variety. This display is a great attraction to hundreds of people, growers and others, who marvel at their perfection, beauty and size.

CULTURE OF THE DAHLIA

The Dahlia is one of the easiest flowers to grow and will produce more flowers than any other plant grown, if the simple cultural directions are followed closely. They can be grown in any garden soil, but, if possible, plant in an open, sunny location. Prepare the soil thoroughly by digging 12 to 18 inches deep, in the fall, if possible, and again in the spring. Plant any time between April 1 and June 1, digging holes six inches deep and from three to four feet apart. Then lay in the tuber flat on its side, the size of which makes no difference as long as it has one strong eye, or sprout. Cover three inches deep, thus leaving the hole one-half full, to be filled after plant comes up to 6 or 8 inches above the ground. As soon as plant is large enough, cut the top of it just above the second or third set of leaves, which causes the plant to grow a stout branch at the base of each of the four or six leaves left. Just as soon as the plants are up, the most important thing to do is to keep the soil loose and mellow by hoeing or cultivating once or twice a week, and just as soon after each rain as the soil will permit. As soon as the buds appear, stop all cultivation and give the beds a mulch of rotten manure, leaves, grass clippings, etc., and around the base of each plant place a shovelful of well-rotted manure, if possible. Water the beds and plants thoroughly once or twice a week and especially during the dry weather. It is hardly necessary to water the plants very much until the first part of July, unless we experience a dry season in June, or unless you have them planted in a narrow bed or single rows and the adjoining ground is not kept moist. To have the greatest success is to keep them growing, but as strong and sturdy as possible. Never allow the faded flowers to remain on the plant, but cut them off with as much stem or stalk as you can. Dahlias will continue to bloom until a heavy frost kills the tops in the fall, after which the tops are cut off and the roots are dug up and stored in a frost-proof cellar or basement, covering with dry soil, sand or anything that will keep them from shriveling. Divide in the spring after the eyes begin to show.

PLEASE READ BEFORE ORDERING

Order Early.—Do not delay ordering until planting time, as many varieties will be sold out. As orders are received, stock will be reserved and sent at the proper time, or sooner, if requested.

Terms.—Cash with order by Money Order or Bank Draft. Stamps will be accepted for all orders amounting to $1.00 or less.

Shipping.—All orders taken at the Dahlia Shows and Gardens last fall and those received this spring will be sent the latter part of April, unless we are advised to send otherwise.

Our Guarantee.—We guarantee every bulb, root or plant sent out to be true to name and color, and also to be in growing condition when received, after which our responsibility ceases. Please notify at once if anything is unsatisfactory, when received, or any bulb or tuber does not start to grow after planted a reasonable time.

Substitution.—We never substitute unless asked to do so, in the order, but would suggest naming a few varieties as second choice.

Name and Address.—Be sure to write name and address very plainly in each letter and send same to the following address:

CROWN PRINCESS LOUISE  (New 1927)

Decorative Dahlia

One of the most popular decorative dahlias of last season. The plant itself is a tall and vigorous grower. The flowers are large with strong stiff stems having a color combination of old gold to a deep amber, and a soft tone of old rose can be seen upon close inspection. Bushes are always filled with large flowers which retain full centers to the last. We have had the honor in naming this new dahlia for her Royal Highness Crown Princess Louise of Sweden on her recent visit to San Francisco last July. ................................................................. $5.00
DECORATIVE DAHLIAS

This form is unquestionably the best type of the Dahlia for cut flower purposes, with possibly the exception of the show form—both of these types being quite compact, and therefore, possess keeping qualities far in excess of other types.

The true Decorative Dahlia has broad, rounded petals and should never show an open center. Nearly all of this type of Dahlia produce flowers of exceptional size and beauty, with splendid long stout stems. Several of this extraordinary fine collection are of our own introduction. They cannot fail to please the most critical.

c A. L. Koran—Immense golden yellow with a slight wave in each petal which adds grace to the flower. Excellent stems and recent prize winner .................................................. $2.00

America—One of the best Dahlias for cutting in existence, lasting a week in water; salmon shading to yellow ................................................................. .35

c Amun. Ra.—A large Exhibition Decorative with gorgeous shades of copper and orange, shading to gold and amber, is a very attractive flower and a good keeper when cut for decorative purposes and are on perfect upright stems ........................................... 1.00

BLACK JACK

Excellent decorative of a very dark maroon, almost black. Has perfect large flowers on long stout stems .............................................................. 2.50

c Byron—One of the best decorative of its color; deep wine color; a very strong grower ................................. .75

c Berceuse—Salmon, suffused with gold, on perfect stems; a prolific producer of flowers which are admirable for cutting ........................................... 1.00

c Carolyn Wintgen—An enormous decorative, each bloom averaging 8 to 10 inches across; salmon pink shading to rose; the blooms held erect on fine, long stems; a beautiful Dahlia for exhibition and good keeping qualities as a cut flower ...................................................... .50

c California Superba—A delicate shade of pink, shading to a white center; the blooms average 10 inches in diameter and is a fine keeper when cut for exhibition or garden purposes; the growth and stem also are ideal ................................................................. 2.50

c Champagne—A large decorative dull gold shading to chamois. Very good for exhibition ........................................... 2.50

CHRONICLE (New 1921)

c An immense flower of a rich velvety red, shading to a deeper tone toward the center. The blooms are full and have long stiff stems. A recent prize winner .............................................. 3.50

c Clairmont—A pretty cream shading to pink; hybrid decorative on long stems; a very unusual color; so hard to get, it beats everything for color that has yet been developed; fine exhibition Dahlia .............................................. 2.00

c Delice—A pretty shell pink ........................................................................ .25

DAWN (Our New 1925)

c A large exhibition decorative color a wonderful cream shading to yellow suffused with shell pink. Flowers held erect on good stiff stems, far above the foliage. Average size eight to nine inches. Dawn has won first prize for the best 1920 seedling at the Palace Hotel Show. Best dahlia in the show 1921 held by the Alameda County Floral Society and also best dahlia 1921 at Palace Hotel Show ................................................................. 2.00

c Dr. Tevis—The largest and most beautiful decorative in cultivation, with long, strong stems; blooms average 9 to 11 inches across; color is a beautiful shade of salmon rose, suffused with old gold shading to a golden apricot; the largest Dahlia in existence for exhibition purposes .............................................. .75

c Eva Pelicano—One of the best whites raised; very large flowers on long stiff stems, and are ideal for exhibition, at the same time equally as good grown for garden decoration ................................... 1.00

Dahlias marked c are of California origin.
MISS CALIFORNIA  (New 1926)

Decorative Dahlia

e A large decorative dahlia, perfectly formed and beautiful in color, known as oriental fuchsia (a new color). It is tall and hardy with strong stiff stems ranging from 4 to 5 feet in length with the bloom held high above the foliage; size 9 to 10 inches in diameter. It is an excellent keeper, therefore it is a wonderful bloom for commercial as well as exhibiting purposes. Miss California won First Prize, best 3 year old seedling, 6 blooms, at the California State Floral Society, 1925, also First Prize, best 12 blooms, at the recent Palace Hotel Show 1926. .......................... $5.00

Page seven
DECORATIVE DAHLIAS—Continued

Futurity—A beautiful shade of shrimp pink and old rose. ........................................ $0.75

General Joffre—A pretty soft pink, shading to white; fine form; fine for garden or exhibition purposes ........................................... .50

c Grizzly—A large crimson maroon decorative, on perfect stems; originated in California .......... 1.00

c Gladys Meyer—A large canary yellow; a beautiful shade on extra long stem; blooms average 9 to 10 inches across ........................................... 1.00

c Golden Glow—Apricot, shading to amber; a majestic flower on long upright stems, a good keeper and useful for the garden and exhibition; an ideal dahlia for the florist for basket purposes .......... .75

c Gigantea Sequoia—A beautiful yellow decorative; a large flower on perfect upright stems; an ideal Dahlia for garden or exhibition purposes ........................................... 1.00

c Halvelia—Very large blooms of rose pink with perfect upright stems good for exhibition and garden effect ........................................... 2.00

Insulind—A novelty from Holland; a rich golden orange, suffused with bronze and apricot shadings; the blooms are of excellent form on cane-like stems ........................................... 1.00

c Jane Selby—A beautiful mauve pink; considered the best of its color; the flowers are large and of fine form and good stem; for cut flowers for display purposes nothing better in its color; a California introduction ........................................... 1.00

JERSEY BEAUTY

Famous prize winning dahlia of clear erosine pink, with perfect blooms, held high above the foliage on good stiff stem ........................................... 2.00

c J. W. Davies—The deepest shade of cerise. This grand decorative is very attractive on the plant or the exhibition table. The blooms are supported by unusually strong stems which hold them erect ........................................... 2.50

KARMA

Large flower of clear orchid pink, with excellent stem. A continuous bloomer throughout the season.
A recent prize winner ........................................... 3.50

c Kittlewell Junior—A deep vermilion; a fine cutting variety, also for effect; on stiff stems and quite erect ........................................... 1.00

c Kitty Dunlap—Decorative of American Beauty Rose shade, producing huge exhibition blooms. The stems are very long and wiry; a real acquisition and can be recommended for any purpose. ........................................... 1.50

c Lady Diana—A very good dahlia coloring a dainty orchid pink with a suggestion of canary yellow. A good stem and fine bloomer ........................................... 2.00

c La Senorita—This is a decorative of great size; a rich velvet crimson with every flower carried perfectly erect on a giant stem and if grown for exhibition is tip top for vases ........................................... 1.50

LEAH GLEADELL

c A combination of copper and bright gold color. The plant is a tall grower and flowers are large on extra long stems. Blooms freely and is good keeper ........................................... 3.00

Dahlias marked c are of California origin.

Page eight
MRS. ELEANOR MARTIN
Decorative Dahlia

We have received many letters from growers throughout the United States stating the splendid success they have had with this dahlia.

It has won 1st prize as the largest dahlia at the California Dahlia Society Show held at the Palace Hotel, September, 1925. $1.00
DECORATIVE DAHLIAS—Continued

Le grande Manitou—A large flower; white, streaked with violet purple. ..................... 80.35

M. H. DeYOUNG

A wonderful dahlia of a pure old gold color. The blooms are large and held high above the foliage and have good stems. An excellent exhibition variety and cut flower. ..................... 5.00

c Mabel Taft—A graceful and beautiful shade; yellow suffused with apricot; very attractive in the garden, the plant having fine form, displaying the blooms on perfect upright stem. ..................... 75c

MADRONA—(New 1926)

c The vigorous growth, extra long stiff stems, of this new velvety crimson dahlia, whose flowers average over 10 inches, made this dahlia one of the most attractive in our garden this year. It is an exceptionally free bloomer and good keeper. ..................... 2.50

c Maryan—Apricot to buff, on perfect stems. One of the most useful varieties, either for garden or exhibition purposes. ..................... 75c

c Mary C. Burns—A wonderful color; the outside of the petals are old gold and the reverse a dull red; a very attractive Dahlia in the garden and an excellent exhibition variety. ..................... 1.00

MEADOW LARK (New 1924)

c A very good dahlia of an entirely new color of shadings of buff and straw with the reverse sides darker. Flower held erect on long stiff stems. Very strong grower. ..................... 2.50

c Millie Rodgers—A wonderful flower of immense size; a beautiful color of old gold shading to amber; a wonderful combination, which gives a new effect in colors, the size of the blooms measuring 8 inches in diameter. The flowers are held erect on long stems far above the foliage. As a cut flower the blooms last for days. A pretty Dahlia for garden effect and good for exhibition purposes. ..................... 1.00

c Minnie Burgle—Very bright crimson; good for garden exhibition. ..................... 25c

Millionaire—An immense decorative; white shading to lavender on upright stem; an exhibition variety. ..................... 75c

c Miss Worn—The color is a burnished copper suffusion of old rose; the flower in formation suggests Futurity; a large flower suitable for exhibition. ..................... 1.50

MR. WILLIAM ROMAINE (New 1926)

c One of our best decoratives, which we can recommend highly. Its large perfect flowers, of clear lavender pink shading to white at center, held on very strong stiff stems. It is a free bloomer and good keeper, which makes it excellent for exhibition and cut flower purposes. ..................... 2.50

c Mrs. O. D. Baldwin—A delightful new shade of American Beauty; the stems are like wire and stand a long time when cut. This variety was one of the most admired in my garden; an ideal dahlia for exhibition purposes. ..................... 1.00

c Mrs. Carl Salbach—One of the prettiest decoratives in cultivation; lavender pink; a very full and deep flower on very long, stiff stems. The blooms average 9 inches across and are in big demand for exhibition and very striking in the garden. ..................... 75c

Dahlias marked c are of California origin.
DECORATIVE DAHLIAS—Continued

Mrs. I. De Warner. Large flowers of a rich mauve pink. Long stiff stems. Excellent cut flower... $1.50

MRS. ELEANOR MARTIN (New 1924)

c One of the finest decoratives we have yet offered and it is no exaggeration when we describe it as a Giant flower. The blooms average 10 to 11 inches across on a Giant stem the latter being two feet long and like a cane. The form of the flower is of the best exhibition type, in fact it combines all the points which go to make a perfect decorative. The color is a beautiful Mulberry suffused with gold.......................... 4.00

c Mrs. Estes—A beautiful hybrid decorative white; the best of the color in cultivation; every bloom fit for exhibition; does good everywhere............................. 1.00

c Mrs. Florence Cornelius—A rich amber shading to old gold on a very good stem. A recent prize winner. Fine for cut flower.................................................. 2.00

c Mrs. Kittlewell—Very dark crimson; free; on fine stems.................................................. .25

c Mrs. R. Lohrmann—A large yellow; a fine variety for show purposes; a California variety........ 1.00

MRS. A. MUSANTE (New 1927)

This is a large and attractive dahlia. Color is a mauve suffused with a delicate rose pink. The flowers are full and have great depth, which give them formation of a huge ball. This is an excellent keeper and fine for exhibition.................................................. 5.00

MRS. A. VERDI (New 1926)

c A lovely flower of a deep lilac shade with a pale lavender sheen. The blooms are large and held high above foliage on good stems. A good keeper and excellent cut flower.................................................. 2.00

c Paul Michael—Deep orange buff, shading to old rose on reverse of petals. This is the largest in diameter in decoratives and a prize winner each season.......................... 1.00

c Polar Bear—A large snow white decorative, suitable for garden or exhibition.......................... .75

President Wilson—This is the best sent out by Mr. G. T. West for years. The flowers are large and on long erect stems and of a brilliant vermilion scarlet. A new novelty from England.......... 1.50

c Pride of California—A fine red; blooms very large, on a strong stem; a California novelty which will be in demand for exhibition, and a good keeper.................................................. .50

OLIVE REED

c An exceptionally fine very large clear yellow dahlia. The flowers have great depth and good substance and excellent stems. This dahlia has been a great attraction at our gardens, and has proven successful wherever grown.................................................. 7.50

PRIDE OF SAN FRANCISCO (New 1924)

c A clear golden salmon pink with perfect stems. Prolific bloomer and excellent cut flower........ 1.50

c Princess Pat—A new California decorative of old rose; flowers are large and perfectly formed, good stems, good keeping qualities and good for exhibition.................................................. .75

Dahlias marked c are of California origin.

Page eleven
DECORATIVE DAHLIAS—Continued

Proxie—A rich velvet crimson; a very large and beautiful variety with a splendid stem which carries the flowers erect in spite of their weight and size; a first class exhibition variety. $1.00

c Rookwood—A bright cerise rose; one of the best in its shade and carries the flowers upright on strong wiry stems; this variety is a prize winner when displayed at the shows. 3.00

QUEEN OF THE GARDEN BEAUTIFUL

c This is really the largest dahlia ever introduced. It is an enormous light yellow. The stems are huge stiff canes which support the big flowers wonderfully. Winner of the S. W. Heller Memorial Prize at the Palace Show, 1925. 7.50

RORY O’MOORE

c A very attractive dahlia of a pale maroon tipped white, deep, regular formed blossoms, with good stem. 3.50

SANTA ROSA (New 1925)

c A beautiful decorative. Color, old rose. Flowers held erect on good stems. Extra good keeper and excellent for florist work. 1.00

c Seabright—Rich amber yellow; large, on fine stems. .35

c Shudow’s Lavender—A delightful old rose suffused with lilac and shading to yellow at the center. This is essentially an exhibition variety; the stems are long and erect. In our gardens we displayed 11 inch blooms and it has been awarded prizes all over America. 2.00

ST. BERNARD (New 1924)

c This is one of the largest dahlias today in cultivation. In color a soft creamy white suffused with a clear pink. Has a very good stiff stem. One of the best for exhibition. 1.50

ST. FRANCIS

c Soft cream with a pinkish glow on the outer petals. Flowers are large and have good stems and never show centers. Excellent keeper and good cut flowers. 2.00

c Theodore Vail—A large decorative; old gold shading to apricot, on long stems; a good keeper when cut for decorative purposes; an exhibition variety. .75

c Vanity—Coral pink; a grand type of flower, having at the same time the added value of a distinct color. The feature is good stem which this variety has. 1.00

c Virginia—A large lavender pink decorative on a perfect stem; this variety was greatly admired at the last Palace Hotel and Oakland Shows; this novelty is a first class exhibition bloom, and a fine garden flower; a California novelty. 1.00

c W. E. Cooper—A fine variety for exhibition or garden; the well formed blooms of a beautiful pink, being produced on rigid stems. 1.50

SUNNY SAN JOAQUIN (New 1926)

A bright canary yellow with large blossoms with fine depth and excellent stiff stems. Good for cut flowers and exhibition purposes. 1.50

Dahlias marked c are of California origin.

Page twelve
Cactus Dahlia—Rollo Boy Prize Winner

ROLLO BOY (New 1924)

This Dahlia won for us, First Prize for the Largest Dahlia and also First Prize for the Best Dahlia at the Palace Hotel Dahlia Show, 1924. The picture does not do this Dahlia justice.

Rollo Boy has proven a great success as a prize-winner with both local and eastern growers. This is a Hybrid Cactus of great size with every flower carried perfectly erect on a strong stem. A delicate shade of amber shading to old gold. The plants require little attention as regards thinning. This variety being in every way one of the most striking advances yet made on the Hybrid Cactus section. It is a conspicuous garden plant and if desired for exhibition it is the largest in this section. Stock limited

$3.50

Dahlias marked c are of California origin.

Page thirteen
CACTUS VARIETIES OF DAHLIAS

The true "Cactus" form or type of Dahlia is that which has the long, sharp-pointed, quilled petal, and was until recently more to be desired than any other type of Dahlia. While the new Peony and Decorative types are rapidly gaining in popular esteem, the Cactus type, because of its elegant form and its richness and diversity of coloring, will still continue to be the favorite with many of our customers. Cactus varieties are, as a rule, very free in bloom.

Alabaster—Large incurved pure snowy white, with excellent stem .................................... 81.00

AMBASSADOR
c One of the best hybrid cactus introduced. Color a soft amber with shade of amber pink and salmon. Flowers are large and held high above foliage on stiff stems. Our stock is true stock never showing center. Ambassador has been a consistent prize winner ......................................................... 3.00
c Amber Glow—A clear yellow, shading to pale orange at center. An excellent exhibition variety... 1.00

ANNA DONNERSMARK
Recent German importation. An excellent cut flower. Color white suffused with clear pink. Very prolific of flowers and good keeper .................................................. 1.00
c Arthur Twitchett—An American Cactus; white shading to blush; one of the best Cactus we have yet offered and it is no exaggeration when we describe it as a giant flower on a perfect upright stem ........................................... 1.00
c Ballet Girl—White shading to orange; sometimes the blooms come solid orange. This is one of the best Cactus of true English type raised in America. The plant is a great bloom producer and a first class variety for exhibition purposes ................................................ 1.50

BEARS CLAWS
c An immense American Cactus of a ruby red, tipped a decided tan shade ...................................... 2.00

Beloit—Rich purple, garnet; very large flowers, borne on a long stem ........................................... .50
c California Enchantress—Hybrid Cactus; delightful shade of pink, with splendid stem; very strong and a free bloomer and a good keeper .................................................. 1.00
c Cigarette—A very good full petalled cactus. Color, a combination of creamy white and orange ....... 2.00

Colibri—Purple, rose; edge white .............................................................................. .35

Crystal—A deep silvery pink with white reverse ............................................................................. .50
c Daddy Butler—An attractive shade of the American Beauty Rose shades or rose carmine; this variety has a fine erect habit ................................................................. 2.00
c Dundee—A Hybrid Cactus of a burnt orange shade with exceptional keeping qualities. Fine for florist work ............................................................................... .75

EL GRANADA
c Hybrid Cactus, with very large flowers of vivid orange with creamy yellow reverse. Excellent stem. A gold medal variety and constant prize winner ........................................... 5.00
c Empire—American Cactus. This is a fine addition to this type; the color is the shade of raspberry, a very deep and full flower; the blooms are large and of the finest quality and the stems are erect ........................................... 2.00

F. W. Fellows—The best orange cactus grown; the blooms are very large and deep; the best for exhibition ...................................................................................................................... .75

Dahlias marked c are of California origin.

Page fourteen
CACTUS VARIETIES OF DAHLIAS—Continued

G. A. B. S.—A very good cactus, deep golden orange shading to bronze red in the center. Excellent for decorative purposes.................................................. 81.00

Gee-Whiz—A large, soft buff, shading to salmon, with perfect long stems; an exhibition variety.... 2.00

NOVELTY PEONY DAHLIAS OF MERIT

Although this type of the Dahlia family was originated in Holland only a few years ago, it has become extremely popular and bids fair to outrace the Cactus type in this respect. They are of immense size and have from 2 to 5 rows of long, broad petals, which are generally curled and twisted, giving the appearance in form of a semi-double Chinese Peony, hence their name. They are the finest bloomers and are unequalled for a continuous display in the garden.

Blue Bird—A beautiful peony with large flowers of blue shading to pink .............................................................. 81.00
c Colleen Bawn—One of the finest new peony dahlias; a large carmine rose suffused with pink. Long stiff stems. Excellent for basket work and decorative purposes ......................................... 3.50
Cream King—A large, creamy yellow; fine for exhibition purposes ................. .75
Geisha—The most popular of the Peonies; a stunner; in red and gold; greatly prized for cutting and exhibiting ................................................................. .75
e Gorgeous—Yellow, shading to bright scarlet. This variety was one of the most admired at the Dahlia Show; it has fine erect stems, producing flowers of gigantic size. This is the largest Peony in cultivation ........................................... 1 50
e Jean Mullane—The phenomenal peony dahlia. A huge burnt orange. Flowers all average over 11 inches. Free bloomer and excellent for exhibition ............................................... 4.00
Meyerbeer—Purple, lined crimson; the largest Peony in cultivation .................. .75
e Oriole—A combination of burnt orange and yellow and red. Some flowers shade white at tips. Fine stem ................................................................. 1 50
Pearl Ruggles—Clear cerise. Perfect peony type; excellent stem .................... 1 00
e Rising Beauty—A wonderful Dahlia of great size, borne on long stiff stems, and very prolific; petals long and flat; color is a brilliant cherry red with tips and outer edge of petals a beautiful gold. This variety has attracted a great deal of admiration wherever it has been exhibited; also has a record as a prize winner ................... 1.50

Dahlias marked c are of California origin.
